CHWS ADVANCING TOGETHER

We loved seeing you all at our June Regional Network sessions! For those of you unable to attend, there are more opportunities coming your way. What we heard the most from participants is that we need more of these gatherings. We also heard many of you would like:

- more information on resources, including having local organizations present
- to share and learn more from each other
- an opportunity for self-care
- to increase access to other CHWs through varying the meeting location and hybrid options

Discussion Summary

What's going well?

- Connection with community, event participation
- Medicaid expansion and enrollment
- Resources for mental health and substance misuse

What are some challenges?

- Limited resources for housing, transportation, domestic violence, recent immigrants
- Lack of understanding of who CHWs are
- Limited connection among CHWs

What do you want from a Regional Network?

- Improved platform for resources
- More collaboration with resource organizations
- Additional training and professional development
- Advocating for more resources (e.g., food, housing) and more connection with local government
